Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Monday 13 Sep 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Frequently wet, with thunder possible at times.

This Evening and Tonight:
A cloudy and dry evening for most but with some rain fringing western areas, occasionally falling over more central areas. Then towards the morning, further widespread rain, heavy and possibly thundery in places, moves in from the southwest. Minimum temperature 12 deg C (54 deg F).

Tuesday:
A wet and cloudy day, as widespread heavy rain, thundery in places, progresses slowly across the region. By nightfall this only affects the far north, with elsewhere turning dry. Maximum temperature 21 deg C (70 deg F).

Outlook for Wednesday to Friday:
Misty starts in places on Wednesday and Thursday, then becoming fine and largely dry with sunny spells, feeling warm in these. Wet and windy Friday.
